

NEW LP ELEMENTS® PERFORMANCE FENCING

Weather Tested. Life Tested. Performance Tested.

Introducing LP Elements® Performance Fencing, an engineered wood fence solution that represents a whole new material category in privacy fencing—offering the natural beauty of wood with the low maintenance of vinyl. LP Elements fencing comes in consistently cut full 6” wide pickets and quality boards. Pickets are available in 6’ and 8’ options.

ADVANTAGES

- Greater durability than wood and vinyl; more pleasing aesthetic than vinyl
- Consistent quality—no bending, warping or twisting like with softwood
- Easy to install—no special tools required
- Invented by LP, a longtime leader in building solutions
- Offers the beauty of cedar and redwood without the maintenance costs and hassles—no need to re-stain
- More attractive and environmentally sustainable than vinyl
- Engineered and tested to withstand high-velocity hurricane winds (up to 200 MPH, Exposure D), hail and impact from small rocks, baseballs, etc.
- Available in seven natural colors

ONE OF THE INDUSTRY’S MOST RIGOROUSLY TESTED FENCING

LP Elements fencing is protected to the core by our proprietary zinc borate-based process designed to withstand impacts, high humidity and more.

WIDE RANGE OF COLOR CHOICES
