

GREEN BRIEF

Available in 19 beautiful, nature-inspired colors, LP CanExel Prefinished Siding combines all the advantages of engineered wood with the advantages of prefinished siding. Five layers of baked-on paint and sealer provide years of enduring performance. All LP CanExel products offer a 25-Year Limited Warranty against peeling, separating, and chipping, a 15-Year Limited Warranty on the finish, and a 5-Year, 100% Labor and Replacement feature.

LP CanExel & the Environment

Manufacturing

- LP CanExel products are made from wood – a renewable, natural resource.
- Our wood procurement process targets small, fast growing trees that can be replenished more quickly than larger, older trees.
- We use SFI® certified forest management and fiber sourcing systems to help ensure that our wood comes from well-managed forests.
- The entire log is used in our manufacturing process. All wood waste is repurposed or used to help fuel our mills.
- We only use low-emitting, safe resins in the manufacture of LP CanExel products, and do not add any urea-formaldehyde.

Product Performance

- LP CanExel products can help builders reduce waste on the jobsite:
 - The absence of knots helps reduce scrap woodpiles.
 - High quality means less material lost to breakage.
- Our LP CanExel products may help you achieve certification points in a number of leading green building programs.

Conserve. Create. Renew.

At LP, our approach to the environment can be summed up with three words: conserve, create and renew. As a leader in the building products industry, we view it as our responsibility to be good stewards of the environment and to develop and manufacture products that help builders build better homes.

To us, “green” is about conserving natural resources, creating products that help builders reduce waste, and finding ways to utilize renewable energy sources and reduce waste throughout our operations.

GREEN BUILDING CERTIFICATION PROGRAMS

The use of LP CanExel may help you qualify for points in leading green building programs. The information below was compiled from relevant sections within each program and is for guidance only. This resource is designed to help you quickly identify areas where you could potentially earn points. Since program requirements vary and details may change, verify qualification criteria with each individual program. For specific questions related to LP products, please call 888.820.0325.

Single Family Canada

PROGRAM	CATEGORY	SECTION	ITEM	DESCRIPTION	POINTS
	Innovation and Design Process	Innovative Design	ID 3.1, ID 3.2, ID 3.3, ID 3.4		up to 4
	Materials and Resources	Environmentally Preferable Products	MR 2.2	Local production. Use products that were extracted, processed, and manufactured within 800 km (500 miles) of the home if moved by truck or within 2400 km (1500 miles) if moved by rail.	1/2 pt
	Business Practice	Products used are manufactured within 800km	8-1		1 to 5
	Business Practice	Manufacturer has written environmental policy that includes office recycling and energy efficient lighting	8-6		1
