

LP® FLAMEBLOCK® FIRE-RATED OSB SHEATHING SAFETY INFORMATION

LOOK BENEATH THE IGNITION-RESISTANT PYROTITE COATING AND YOU'LL FIND THE STRENGTH OF LP® OSB.

LP® FLAMEBLOCK® FIRE-RATED OSB SHEATHING FEATURES
 A PROPRIETARY NON-COMBUSTIBLE, FIBERGLASS-REINFORCED PYROTITE® TREATMENT.

By following the guidance below, installation of LP® FlameBlock® Fire-Rated OSB Sheathing can be easier and safer. Safety is a core value at LP Building Products, and we are committed to the safety and well-being of workers who make or use our products. It's who we are today. It's who we are going to be tomorrow.

For detailed safety information, we recommend all users of LP OSB products refer to the Safety Data Sheet (SDS) located on our website. This overview is not intended to replace the careful reading of the SDS before using an OSB product.

Dress Properly:

Handling and installing LP products may produce dust when cut which can irritate eyes, nose, throat, skin and upper respiratory tract; therefore, we recommend the following be worn when using LP FlameBlock sheathing.

- ANSI approved safety glasses
- Appropriate gloves
- NIOSH approved dust mask
- Long sleeves and/or protective coveralls
- Long pants

Maintain a Clean and Safe Work Area:

Maintaining a proper work area is essential to the safe handling and installation of LP OSB products.

- Use (sand, saw, etc.) outdoors or in well ventilated areas
- Store panels flat to prevent the product from sliding or falling
- Keep work areas free of scrap materials to minimize dust and prevent tripping hazards
- Follow best practice for site management and disposal of waste
- Wash hands before eating

⚠ Cal. Prop 65 Warning: Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection.
