

LP® TECHSHIELD® RADIANT BARRIER SHEATHING

Original #1 Brand of Radiant Barrier Sheathing

Installed in more than 2 million homes, LP® TechShield® Radiant Barrier Sheathing is one of the industry's best-selling brands of radiant barrier sheathing. With a track record of proven success, LP TechShield sheathing can be a cost-effective way to boost a home's energy efficiency and improve HERS® Index Scores.

LP TechShield Radiant Barrier Sheathing features a thin, durable aluminum-based overlay with our LP® VaporVents™ technology. This post-lamination incising process allows LP TechShield panels to dry quickly from moisture during and after construction to help prevent moisture build-up.

ADVANTAGES

- Reduces attic temperatures by up to 30° F
- Installs like conventional roof sheathing, requiring no additional labor
- 20-year limited warranty
- VaporVents technology with post-lamination incising allows panel to dry quickly
- Can result in an overall lower HERS® Index Score
- Manufactured by LP, one of the largest OSB producers, so it is available when and where you need it
