

LIMITED WARRANTY TO TRUSS MANUFACTURER

1. WARRANTY COVERAGE

Products. This warranty is provided to the truss manufacturer utilizing Louisiana-Pacific Corporation (LP) SolidStart Laminated Veneer Lumber (LVL) and Laminated Strand Lumber (LSL) Truss Chords (the “Products”) in the manufacture of trusses. LP warrants that the Products will, at the time of shipment from LP’s mills, meet or exceed LP manufacturing standards, including LP’s Product specifications and design values, and will exhibit no delamination.

Delamination is a visible separation between the primary wood elements of the Product which results in the reduction of structural strength and is limited to separations (i) within the matrix of strands of LSL or (ii) in the glue bonds between the layers of veneer in LVL. Minor characteristics such as loose or folded surface strands and small interior voids and separations in LSL do not qualify as Delamination. Surface checking, swelling or cupping of the Products are not covered by this warranty.

Use of the Products other than as a truss chord, where permitted by LP’s then current published product instructions, is warranted pursuant to the LP SolidStart Lifetime Limited Warranty.
