

SOLIDSTART®

ENGINEERED WOOD LSL

Truss Chords

- Well-suited for attic or girder applications
- I-Joist and lumber compatible depths ease transition to adjacent floor systems
- Excellent plate and nail holding capability
- Cost effective alternative to comparable LVL products
- Does not split as easily as lumber and LVL

- Grade: 1.75E Truss Chord
- Depths: 3-1/2" to 14"
- Thickness: 1-1/2"
- Lengths: 16', 20', 24', 48'
